Experiment C: handling of not-ascertainable outcomes (logistic, trained on source labels)
complete case (ascertainable only) (n=1154)
IPCW, censoring KM stratified by cohort (n=1153)
IPCW, pooled censoring KM (n=1153)
unknown imputed as survivor (released practice) (n=1365)
unknown imputed as early death (n=1365)
sharp bounds over all completions of unknowns (n=1365)
Harrell C-index, OS (GDC), all usable follow-up (n=1321)
